

Pam Hamilton

Helping You Find The Courage To Be Seen

Over her 27 years as an Attorney working with small business owners and entrepreneurs, Pam discovered her greatest gifts lay in supporting her clients through the mindset and visibility issues that were blocking the success they so desperately wanted.

Breaking out of invisibility has been a key turning point for Pam's business. She is proud to share her story and the lessons she learned on her journey in her book, "The Ten Principles Of Visibility."

Want to inspire your audience to be more visible, take more chances and grow successful businesses? I would love to support you in that.

“ I had the pleasure of hosting Pam Hamilton as a speaker during a live session for She's Got Content Virtual Summit 2020 in November 2020. Pam was the ultimate professional in every way. When I initially approached her to speak and suggested the topic I wanted covered for my audience, she asked clarifying questions. This helped me drill down to exactly what would be best to focus on during her session for this particular audience. On the day of the summit, Pam showed up on time, prepared, engaging, and informative. I would highly recommend Pam as a speaker or panelist for your next virtual or live event.
